WORK EXPERIENCE

Summersalt, Remote
(Aug 2017 - May 2019)

Software Engineer & Project Lead

- Oversaw development for 18 months as revenue increased tenfold, eventually achieving 7-figure monthly revenues
- Launched two full Shopify theme overhauls supported by a custom backend Rails app for advanced features
- Built many advanced features, including automated JCrew & Madewell marketplace integrations, holiday gift packs, promotional referral program for new products, and product review program
- Created Tableau dashboards and data aggregation tools for CEO to analyze all aspects of the business

Key Achievement: Launched a "Home Try-on" program using a custom Rails app which shipped out and managed returns for hundreds of try-on packs per month

Crowdpleaser, Remote
(Jan 2016 - Oct 2018)

Software Engineer & Project Lead

- Led software development with two junior developers to launch custom Rails website ahead of estimates
- Launched bug fixes and new features over the next year to grow the site into a sustainable lifestyle business
- Integrated many third-party tools such as Google Maps API and various payment processing APIs

Key Achievement: Optimized ActiveRecord queries to reduce Heroku dyno memory usage by 50%

Brand New Ship, Remote
(Mar 2015 - May 2019)

Software Engineer

- Worked in various roles to launch full custom websites and contribute smaller features to existing websites
- Contributed code to over a dozen startups primarily using Ruby on Rails and React.js, but also Angular, Ember, React Native, Shopify, Wordpress, and Node.js
- Worked 100% remotely while successfully managing deadlines and client communication

Teaching Assistant Program, Normandy, France
(Sep 2014 - May 2015)

English Teaching Assistant

- Taught English classes and American culture classes to French high school students
- Started an English Club to encourage casual English conversation during weekly lunches

Flashstarts, Inc., Cleveland, OH
(June 2014 - Sep 2014)

Software Engineering Intern

- Built features for 6 different startups in the Flashstarts incubator program
- Finalist in NOCHE Pitch Competition where interns across Ohio shared their internship experiences

Key Achivement: Worked with the Remesh.ai team who went on to join Techstars NYC and raise $39 million
